

LOST PROFILE - SPECIFICATION SHEET - **COLOSSAL 900 WALL SCONCE**

Whether its skeletal form has been unearthed by an archeological dig, or pulled from a ruined factory in eastern Europe, this fixture is from a different age. An age where design, be it natural or human, had to be brutal.

Brass, acrylic, LED.

MAINTENANCE

All LOST PROFILE metal surfaces are waxed. These metal surfaces are designed to age and patinate. Wear gloves when handling to avoid hand prints. Clear enamel coating is available on request. Enamelling does not stop the patination process, it just slows the process down.

DRIVERS & DIMMING

LOST PROFILE products are supplied with 0-10V dimmable LED drivers. The location of the driver needs to be considered, whether in a ceiling cavity, in a wall cavity, or ideally in an accessible electricals cabinet.
